

CLASSIC Scandinavian

Classic Scandinavian combines beautiful classic patterns with exclusive modern Scandinavian design making it suitable for interior decoration together with classical as well as the newest furniture trends.

The patterns of Classic Scandinavian have been designed in such a way that you can decorate with different patterns on the same wall. Not only as a split-wall, but also by hanging one or two lengths of one design and combining it with a different design in the same or a matching colour on the rest of the wall.

The colour range varies from striking white and black over stylish sand, grey and beige to decorative saturated tones of blue, bordeaux, curry and brown. Many of the designs have silvery effects which differs according to the light incidence.

The collection is printed on a heavy, high quality paper with a matt, yet washable coating making it equally suitable for offices as well as hotels and private residents.
