

A new sophisticated wallpaper collection from Flügger

The new Fioton 4 collection is both beautiful and practical.

Delicate colours, Scandinavian patterns and a weak glitter effect. These are some of the characteristics of the new and very sophisticated wallpaper collection, Fioton 4, from Flügger.

Fioton 4 was designed by Elsa Kirstine Krogh, who has specialized in wallpaper design for the past 25 years.

This time she has created a unique collection of wallpaper with both classical patterns and modern graphics. It even comes in a large range of colours. Beyond the delicate colours like crème, delicate yellow and pale blue, the Fioton 4 collection consists of dark saturated colours like blue, olive, red and brown.

In this way the wallpapers suit all types of rooms – from kitchens to nurseries.

Easy to hang

Fioton 4 is not only a beautiful collection. It is also practical and easy to hang.

Firstly the collection has a matching colour chart, which makes it easy to match the wallpapers with e.g. kitchen cupboard doors, door frames and cupboards.

Secondly the wallpapers have a robust surface, which will stand cleaning with a soft cloth and a mild cleansing agent.

Thirdly the rolls are winded backside out, which means that the lanes will not roll up but instead cling round the wallpaper table.

Fioton 4 is also suitable for wallpaper pasting machine.

Extra long rolls

The rolls have been made extra long so that you will get an extra lane per roll even with a floor-to-ceiling height of up to 270 cm.

Roll size	53 cm x 11,2 m
Rolls per carton	12
No. of designs	60

All Fioton wallpapers are printed with environmentally friendly water-based colours.
